

1. DeviceN ICC profiles.
One for each DeviceN
color space of interest.
Can be created by
measurement or from
a mixing model.

2. Preload into
graphics library

Graphics Library

4. When DeviceN color
space encountered, check
DeviceN ICC profiles. See
Figure 2.

```
[/DeviceN  
 [ /Orange /Green /Blue ]  
 /DeviceCMYK  
 tintTransform  
 ]
```

Document with
a DeviceN color
space

3. Load and parse document to render
